## Sherman Morgan Model

Let us introduce to you Breyer's newest addition to their Artist Series. Fashioned after the famous son of Justin Morgan, it depicts Sherman Morgan, the first of his most outstanding sons. Jeanne Mellin was selected by Breyer Models to produce the original sculpture from which the model was made. She has worked very closely with them during the past months to help them create an authentic looking image of Sherman.

This model stands approximately 10 inches tall, and is chestnut in color.
